Frontend Developer with 4+ years of experience building complex, scalable web applications using Angular, React and TypeScript. Strong focus on frontend architecture and performance optimization.

Skills

Frontend: Angular, React, TypeScript, Next.js, RxJS, SCSS, State Management.

Backend & APIs: Node.js, FastAPI, REST APIs, WebSockets, MongoDB.

Architecture: Nx Monorepos, Performance Optimization.

AI Tools: Custom Skills & Commands, AI Agents, Prompt Engineering.

Work Experience

● Frontend Developer

Kramer LTD | 2023 - 2026

- Built and owned core features end-to-end using Angular, TypeScript and SCSS within an Nx monorepo.
- Developed global real-time control interfaces for enterprise systems across multiple devices.
- Improved performance and optimized state management for large-scale real-time data flows.
- Contributed to shared UI libraries and scalable frontend architecture across multiple applications.

● Frontend Developer

GetBlend | 2022 - 2023

- Built and maintained a production B2C web application using React, TypeScript and MobX.
- Developed modern UI components with a performance focus and internationalization support.
- Worked with product and backend teams to deliver user-facing features.
