CHEN LEIV

FRONTEND ENGINEER

052-6656101 **chenleiv1@gmail.com** Linkedin Portfolio Github

Frontend Engineer with 4+ years of experience building scalable web applications with Angular, React, and TypeScript. Focused on frontend architecture, performance, real-time interfaces, and reusable component systems.

SELECTED PROJECTS

SignalForge Real-time cyber threat intelligence platform (Angular, TypeScript, WebSockets).

InsightDesk AI-powered document platform with RAG assistant (React, TypeScript, Node.js).

EDUCATION

Full Stack Development
Coding Academy | 2021 - 2022

B.A. Management & Services
Yezreel Valley College | 2011 - 2014

SERVICE

IDF Intelligence Corps

Unit 8200

2007-2009

Planned and coordinated complex operational missions.

VOLUNTEERING

Branch Manager

She Codes

Leading a mentoring group for young girls, encouraging curiosity and learning to code.

LANGUAGE

Hebrew

English

SKILLS

Frontend: Angular, React, TypeScript, Next.js, RxJS, State Management.

Backend & APIs: Node.js, FastAPI, REST APIs, WebSockets, MongoDB.

Architecture: Nx Monorepos, Performance Optimization.

AI Tools: AI-assisted Development, Prompt Engineering.

EXPERIENCE

Frontend Developer — 2023-2026

Kramer LTD

- Built and owned features end-to-end using Angular, TypeScript, SCSS, and Nx within a monorepo.
- Developed global real-time control interfaces for enterprise systems across multiple devices.
- Integrated REST APIs with backend engineers to support real-time enterprise applications.
- Built reusable Angular components for shared UI libraries across multiple applications.

Frontend Developer — 2022–2023

GetBlend

- Built and maintained a production B2C application with React, TypeScript, and MobX.
- Developed reusable, performance-focused UI components with internationalization support.
- Partnered with Product and Backend teams to plan and deliver features.
